

To the humane society - with heart!

We are writing to the public in moments of pain and persecution. The pain is unbearable, the unknown is torturous. We do not know what the morrow will bring, salvation or sorrow.

Sadly, until now it was only the latter. With your help and support, it can all easily change.

It is extremely difficult to justify and explain when you're vehemently fighting for your right to exist and are constantly under fire. The general public is caring and passionate for a cause deserving of care and passion. Unfortunately Lev Tahor has been under a negative spotlight and perceived to be a menace to society and a threat to mankind. Anyone crossing paths with a resident of the Lev Tahor community will find him or her to be extremely heartfelt with deep emotions of love and unity. Teachings of the community do not represent a hint of the allegations lodged against us. From our perspective, the allegations are ludicrous at best, genocide at worst.

The purpose of this letter is not to disprove the allegations, or prove there were serious misjustices carried against us as a group of religious deifrences.

This letter serves to awaken those with human feelings of compassion sympathy for another human being, regardless of faith, color or creed.

Canada is proud to be a multi-cultural country that touts many freedoms including one of religion. This freedom has been viciously snatched away from men woman and children, with no one to stand up for them. If no one will stand up for us, what guarantee is there that such cruel misjustices will not be repeated to another minority group?

It is difficult to bring our emotions of a bleeding heart, emotions of children not knowing whether they will be stripped of their warm homes. Whether they should savor their last dinners with their parents and loving siblings. Bleeding emotions of a mother who questions, is this the last of meals I will be preparing for my children? Are my heartwarming dinners, my school lunches, a reason for my little ones to be so far away from me? Why? Why? Why will the world not stand up for me? When will the truth prevail, who will put a stop to the torment.

YOU are the answer, YOU are the solution. A show of support, of solidarity, is what we desperately need in our time of sorrow and oppression., not to despair, a ray of light will shed much of darkness. With your kind gesture of support, you assure mankind that crimes against humanity, whether under the pretense of the law, or otherwise, will not be tolerated or accepted in a society proud to tolerate and accept a diverse mix of backgrounds and cultures.
